Dear Sir, or Madam,

I am a multi-disciplinary digital artist / designer with experience ranging from conceptual Title Design, to award winning Visual Effects, to Digital Film Restoration (Casablanca), to designing Web / DVD interactive menus, to cover designs for DVD, CD, & VHS packaging, to branding Designer clothing lines. Clients: Universal Studios, Warner Bros., Disney, Sony, Microsoft, Kodak, Intel, Kenneth Cole...

Please visit my web site to view my reel and work www.cimavision.net

From the development stage: I can research, analyze, conceptualize, and develop presentable, creative, yet logical and effective solutions, that usually exceed the goals of my clients, directors, & employers.

From the production/post stage: Under direction, I'm a flexible, team player ready to step in and assist where needed, always open and adaptable to new tool sets, shift schedules, and work flows. Working independently, I'm a reliable, skilled pro with an eye for detail and a seasoned aesthetic sensibility. From concept to finish, I can help to assure that your deadlines are met with a quality product.

I'm very interested in your production or project and currently available for hire and ready to assist your team or studio with my extensive range of skills. If you don't see your specific service need, on this short list, Please, don't hesitate to inquire. Call me, so we can discuss the solutions to your specific needs.
