Computer Skills:

Software: Adobe Flash, Dreamweaver, Photoshop, Illustrator, Fireworks, After Effects, Captivate, Final Cut Pro, Motion, MS Office...

Platforms: Working experience with networks using Macintosh, Windows, and Unix, operating systems.

The Process:

From the **development stage:** I will consult with you to determine your needs and requirements, I can then research, design, develop and then present, creative, yet logical, effective solutions that are tailor-made to fit your needs.

From the **production stage:** Once your needs are determined, a design is approved and a timeline set, I will skillfully execute the production of your project on time and within budget with a quality product that meets, or exceeds your expectations.

Team Assistance:

If you are an agency, or studio in need of a specialty service, or just a skilled extra-hand with an eye for detail, I can help to assure that your deadlines are met with a quality product. I'm a flexible switch-hitter who is equally productive working under tight direction, or autonomously. I'm a dependable, pro-active, hard working, team player who can easily assimilate to new tool sets, systems, and work flows. I can work at your location, or mine, I have a Mac Workstation with the necessary software, and a fast DSL connection.

Rates:

I am very interested in starting up a working relationship with your organization, and currently offering low Introductory Incentive Rates to get us started. I can give you a By Project Bid, a Day Rate, or a Per Hour Rate, whichever you prefer. I calculate my rates based on the specifics of the work involved, location and delivery deadlines. Although service arrangements are negotiable and I will strongly consider any predetermined rates, or offers you may have, including long-term contracts and staff positions. So give me a try, call, or email with the details of your project, and let's get started.

Thank you for your consideration I look forward to hearing from you soon.

Sincerely
David Cimaglia
